# DATA CENTER SECURITY
# Integrate **Physical Access Control**
## Towards Agility

**(USD)**
# $3.86M
Average total cost of a data breach

Among all operational technology related threats in 2020:

# 13% **Insider** Incidents

**40%** Negligence
**60%** Malicious Insiders

Data Center **PHYSICAL SECURITY MARKET**
**2020 >>>>> 2025**

**4% CAGR**

# 49%

of IT decision makers pointed out **physical location security** as one of their top three concerns regarding data center operations.

## Agile & flexible physical **access control** solution features:

- Rack Level Access Management
- Multi-factor Authentication
- Centralized Visitor Management
- Access Tracking Automation
- Remote Monitoring
- Video Surveillance Integration

## Key benefits

**FACILITY**

**Enhance physical security**
- ✓ Multi-layered access management
- ✓ Prevent against data breaches

**ORGANIZATION**

**Ensure operational efficiency**
- ✓ Automated access management
- ✓ Scalable cloud-based solutions

**STAFF/ VISITORS**

**Improve user experience**
- ✓ Touchless biometric identification
- ✓ Ease of access for employees
